

# INTERNSHIP TECH CONSULTANCY

(M/F/D)

## JOIN THE SALES TECH WHOLESALE TEAM AS A TECH CONSULTANT IN EMEA REGION:

Technology Consultants are individuals with broad Tech and specific business knowledge, specialized in one or more focus areas or systems.

Their role is to provide expert advisory, analyze systems, solutions, and products, individualize specific system requirements to meet the business demands.

Tech consultants contribute or even drive end-2-end activities such as, demand analysis, requirement engineering, system configuration, strategic planning, stakeholder Mgmt. and digitizing business processes.

They partner closely with product led roles like Product owners, Solution Architects, Engineers, and Agile experts. They work with Global and Market partners too.

### YOUR TASKS

- Interesting tasks within agile Product team such as quarterly drafting Objectives and Key Results (OKRs), roadmap planning, new demand analysis, weekly stand-up calls.
- Work with Atlassian products suite such as Jira and Confluence, capturing demand and documentation.
- Basic analytical/reporting tasks with MicroStrategy and/or MS Power BI.
- Shadowing Technology Consultants during their day-to-day tasks such as Salesforce Sales Cloud or Amazon Web Services configuration.
- Opportunity to assist with Electronic Data Interchange (EDI) messages monitoring and troubleshooting.
- Automate manual business processes via Robotic Process Automation (UiPath, MS Power Apps).
- Assist in the creation of a requirements and in investigating and applying authorized requests, in line with the change management policy.
- Assist in the investigation and resolution of issues relating to applications.

### YOUR PROFILE

- Student of IT, Business Administration or similar
- Enrolled as full-time student for the complete duration of the internship
- Or in the so-called gap year between Bachelor and Master's degree (gap year regulation only applicable to EU citizens due to working permit regulations)
- Team player who enjoys working in an international environment
- Very good communication and interpersonal skills
- Open minded to learn new tools and systems
- Confident and "yes, we can do" mindset
- Responsible to finish tasks on time in full scope
- Proficient spoken and written command of English
- Programming skills (Visual Basic/Excel Macros) are helpful to take on implementation tasks
- Conceptual thinking is helpful to contribute to requirements definition and solution design

### YOUR APPLICATION

At adidas we believe that "Impossible is Nothing".

As part of your application, we'd like you to tell us what this phrase means to you. Think of what makes you passionate about joining the brand and why you want this role.

The format is totally up to you! If you are creative minded, show us. If you're analytical, share more! If you prefer to simply put pen to paper, go for it. Your '1 pager' can be submitted as print, visual, written, digital or a link. The only requirement is that the 1 pager is submitted as a PDF.
